- Directly supports patient care and quality improvement
- Support Service Evaluation required for local or regional/network meetings

Electronic Data Collection & Reporting

Online email support

National developments

- Collaboration in trauma care developments, including the Peer Review of Trauma Networks and national tariff

*VAT: NHS Trusts should be able to recover the VAT under Contracted Out Services Heading 74 "Original research undertaken in order to gain knowledge and understanding"

**The Trauma Audit & Research Network is funded by our participating hospitals. Fees are currently determined by the annual new patient Emergency Department attendances in each Trust (as a surrogate measure of trauma load). Each Hospital in the Trust is considered as part of that Trust. Figures for new patient attendance at Trust A&E are extracted from the Department of Health Publications - Performance Data and Statistics – A&E Attendances
