

Repatriation and Rehabilitation Definitions

As agreed by the TARN Audit Committee and TARN Executive Committee

Guidance Document January 2021

Group 1: Discharged to Rehabilitation:

Acute care complete – Discharged to rehabilitation bed in same or other institution.

Opening Section = No Transfer

Discharge destination in drop down = Rehabilitation

Group 2: Discharged Awaiting Rehab Bed:

Acute Care Complete – Medically Fit for Discharge (MFFD) awaiting rehabilitation bed in same or other institution.

Opening Section = No Transfer

Discharge Destination in drop down = Awaiting Rehabilitation Bed.

Group 3: Repatriation

All patients that are not in group one or two will be classed as Repatriation/Reverse transfer as they are not Medically Fit for Discharge (MFFD).

Opening Section = Transfer Out or Transfer In and Out

Discharge Destination in drop down = Other Acute Hospital.
